The **Gap**

India's healthcare infrastructure cannot serve its people.

80%

Doctors in Urban India

serving just 35% of the population — 65% of rural India is left behind

600M+

People with No Specialist Access

live more than 50km from a specialist — distance is the diagnosis

66%

Disease Burden from NCDs

Diabetes, Heart Disease, Cancer — mostly undetected until it's too late

62%

Out-of-Pocket Health Spending

India's OOPE is among the highest globally — families bear most costs (NHA 2021–22)

One Platform.

Every Point of Care

Apollo TeleHealth delivers an end-to-end care ecosystem — from village sub-centre to ICU — closing the gap between where patients are and where care exists.

Digital Dispensaries

e-PHC Management

Mobile Medical Units

Tele-Ophthalmology

Tele-ICU & Emergency

360º Cancer & TB Screening

Integrated Health Centers

Full Stack Hospital Management

The Gaps **We are Solving**

No doctors in rural areas & tribal regions	**300+ Digital Dispensaries** run by paramedics with specialist teleconsults. **0.7M+** lives reached.
PHCs understaffed, no specialist access	**220+ e-PHCs** fully managed with **50+** diagnostics, **100+** drugs & tele-specialist access. **3.4M+** impacted.
Remote villages **unreachable** by conventional care	**Mobile Medical Units** covering **75** villages each, **20K** patient interactions per year per unit.
Emergency rooms **empty** — 82% ER doctor vacancies in govt hospitals	**TeleER** active in **8 states**. Real-time specialist support for critical cases. **3K+** emergencies handled.

Impact at Scale.

Numbers that matter. Outcomes that prove the model.

30M+	**25M+**	**700+**	**25 Yrs**
Lives Touched	Teleconsultations	Care Centers	Proven Track Record

3.5M+	**2.2M+**	**90%**	**20+**	**20K**
Eye Screenings	Cancer Screenings	Cases Resolved Without Referral	States, PPP Mode	Daily Transactions

ISO 9001 ·ISO 27001 ·ISO 13131 ·World's First ISO 13131 Certified Organization

Our Bouquet of Solutions

Numbers that matter. Outcomes that prove the model.

Digital Dispensaries

Paramedic-led, doctorless model. 30+ diagnostics, 85+ drugs & specialist teleconsults. Odisha, Meghalaya, Jharkhand, UP.

e-PHC Management

End-to-end PHC ops with doctors, pharmacists & lab techs. 50+ diagnostics, specialty camps. AP & Manipur. 3.4M+ impacted.

Mobile Medical Units

Doctor on wheels. 75+ villages per MMU, 20K+ patients/year. Eye screening, diagnostics, ANC/PNC care.

Tele-Ophthalmology

Technology-enabled eye care service delivery. Digital imaging & EMR integration for continuity of care. 3.5M+ Screened for Refractive errors and 2.5M+ spectacles delivered.

TeleER / Tele ICU

24x7 specialist ER & ICU monitoring. 8 states, 3K+ emergencies handled, 30K+ lives stabilized. eAccess Command Centre.

Cancer & TB Screening

360 degree model from awareness to referral. 2.2M+ screened for Cancer. Mobile DigiCXR + NAAT, AI-assisted, NTEP & Ni-kshay integrated. 200K+ screened for TB.

Integrated Health Centres

Full-stack IHCs: GP+specialist OPD, TelePathology, TeleRadiology, TeleER, TeleICU & physiotherapy. 22M+ teleconsults. 12 states.

Hospital Management

End-to-end hospital operations: 24x7 clinical care, pharmacy, EMR, NCD counselling & real-time outcome tracking. 0.3M+ patients.

Technology
That Closes the Gap

Not just telemedicine. A complete connected health infrastructure.

Smart Health Kiosk
Autonomous pre-assessment. Faster OPD workflows, standardized vitals, better doctor productivity.

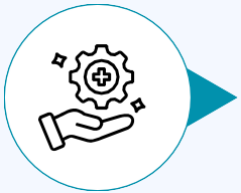

Tele ICU Command Center
24×7 remote ICU monitoring. 2,100+ beds enabled. 40+ hospitals connected via eAccess Command Center.

5G Connected Ambulance
Real-time vitals, live video to ER doctors, 4G/5G compatible. The ambulance becomes an ER extension.

AI & IoMT Devices
Wireless biosensors, AI alert systems, 12-lead Tele-ECG, breast & eye screening devices — all connected.

Why **Apollo TeleHealth**

Not just another telemedicine vendor.

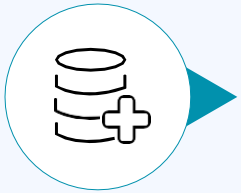

25+ Years. 700+ Centers. Proven.

We've operated the hardest last-mile programs — conflict zones (Manipur), arid deserts (Gujarat), mountain terrain (HP). No one else has.

PPP Experts in 20+ States

Governments trust us to run their public health infrastructure. Not just a vendor — we're an operational partner with ISO-grade governance.

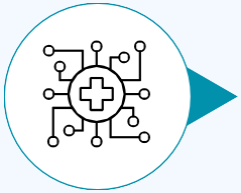

Full Stack, Not Point Solutions

From DD to Tele ICU. From MMU to Connected Ambulance. From TB screening to Cancer referral. One partner, every level of care.

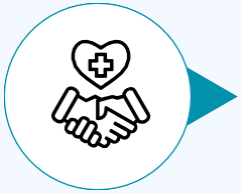

Clinical Outcomes, Not Just Consultations

90% cases resolved without referral. 30% chronic cases under active follow-up. 4K+ patients managed daily. Results-driven.

Technology-First, Human-Led

IoMT, AI alerts, drone delivery, 5G ambulances — paired with India's best clinicians and a 15+ year Biomedical Engineering team.

India's Most Trusted Telehealth Brand

Apollo Hospitals + ISO 13131 + World's First certification = unmatched credibility for government, corporate and donor partnerships.

THE GAP WON'T CLOSE ITSELF.

Let's partner to build an India where access to quality healthcare is not determined by geography or income.
